Data		<p>Shelly McFarland-Update on data acquisition. Discussed development of a QI program. Hand-outs were distributed regarding the 4 key principles of QI. Shelly feels that the statement that a "QI program consist of systematic & continuous actions to lead to measurable improvement" speaks directly to the TSE mission. We need to include the entire system as a part of QI & focus on the impact on patients. We need to focus on data & evidence based care; Kevin would like to include case review as a part of the process & wants standard criteria for them.</p> <p>Christian stated that the Deputy Attorney General is completing the guidelines on data collection & the process & legality of how it is collected & distributed. The north region is about to start their first QI & will be sharing issues & results. This guideline will be on TSE website shortly.</p>				

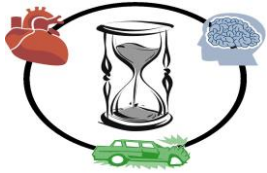

TSE Region 4 Meeting Minutes 5/13/2015

Sub-committees	<p>Broke into groups for work session. CVA-Scott Page, Kevin Kraal, Anne Fullmer, Brenda Gully, Stephanie Shawver Trauma- Shelly McFarland, Jay Blacksher, Brandy Bartholomew, Tami Pearson, Larrin Sant, Lanny Campbell, Dewayne Woodridge STEMI- Tom Mortimer, Deb Robertson, Mark Phillips, Erin Neilson, Wendy, Lara McLean CVA Committee decided to use the FAST assessment tool for outreach education. Their data points are: % of strokes DX by EMS Last known well time to TPA Last known well to CT Door to TPA time EMS scene time (on scene to transport to appropriate facility time including mode of transport). Noted that data collection would be a potential issue & all groups agreed that end point collection seems to be the best route. Trauma Committee: Hospital door to decision to transport time Decision to transfer to actual transfer time STEMI Committee: Pre-hospital on-scene to transport Pre-hospital on scene to ASA administration Dispatch to pt contact Kevin wanted to ensure that our goal is to be able to state what pre-TSE mortality numbers were v.s. Post-TSE numbers.</p>	Stephanie will explore a business agreement between facilities to help data sharing.
